CREMATION.

That cremation, as a means of disposing of the dead is steadily gaining ground in the United States is a recognized fact. A nerica has the honor of leading the way in this modern revival of "fire-burial." A new crematory has I cen constructed near one of the New York cemeteries, and a large number of bodies await cremation. Lemoyne, who built the first furnace in Pennsylvania, was the third person

take to the idea in advance of other signs of receding from the hostile attinations. The furnaces throughout the United States are taxed beyond their working its way.

tion applied to the consuming of the basin, and the only lands yet unknown effective method of disposing of all refuse, animal and vegetable matter.

There are furnaces now in operation in the worth the loss of life and treasure that will be required for future expeditions. A letter was read in the worth the loss of life and treasure that will be required for Europe, after defrauding A. H. Sinder-land out of \$12,000. Cooper representations of large towns where from Chief Engineer Melville, saving in the vicinity of large towns where from Chief Engineer Melville, saying sented to Sinderland, a life-long friend consumed. Such a method of disposing of the refuse matter in the city of Honolulu would seem to Reuckof Sweden. be practical and effective. The present disposal of sewage engenders disease and fills our water courses with deadly poison In our advanced state of civilization our sani-church. tation is a blot and a disgrace. All refuse should be burned. The kitchen stove is found to be a convenient furnace, and into this every thing but excretia is dumped to be Farley, Father Doubresse and Mrs. bed, and the Admiral is broken-hearted Parler Suites, Lounges, Patent Rockers, Easy and utterly consumed, and thus put beyond the process of pullution. This step has already been taken by thousands of households who cremate all of their household wastes and kitchen garbage, greatly to their comfort and relacss. The Cardinal's nephew had lief. Mr. George Shaw is now at the head of an establishment which has solution of the most vexed problem of modern civilization.
